Notes: Some two-character sequences, like *tl*, *dl*, *kw*, *gw*, and *ts*, are treated as single letters in the Kwak'wala alphabet. a represents an “uh” sound. k and g are pronounced like “k” and hard “g”, but with the tongue further back in the mouth. *x* is pronounced like the “h” in “human”, and x like the “ch” in “Bach”. An apostrophe indicates that the sound is pronounced with increased pressure at the back of the throat.
