

(E) Breton Numerals (1/1) [Solution]

E1.

- | | |
|---|----------------|
| a. pevar-ugent ÷ pemp = c’hwezek | (80 ÷ 5 = 16) |
| b. pemp ha hanter kant – daouzek = tri ha daou-ugent | (55 – 12 = 43) |
| c. nav warn ugent + pevarzek = tri ha daou-ugent | (29 + 14 = 43) |
| d. kant ÷ ugent = pemp | (100 ÷ 20 = 5) |

E2.

(b) daoulagad

Some languages have “dual”-style plurals for objects which occur in nature in pairs (such as eyes, ears, etc.), and thus the plural for “eyes” in Breton contains the element daou (2).

E3.

18
