

(H) Can you know / Hanunó'o? (1/2) [15 Points]

The *Hanunó'o* script is an indigenous script used to write the Hanunó'o language, spoken on Mindoro Island, northeast of Palawan Province of The Philippines. Traditionally, Hanunó'o was written by carving characters into strips of bamboo; consequently, it is written vertically (up and down), as opposed to horizontally like the English alphabet.

Below on the left is a list of Filipino place names written in Hanunó'o in random order. On the right is the same list in Latin script, in a different order. Note that there are two extra cities in the Latin list!

1	2	3	4	5	6	7	8	9
