

# (O) Do-This-Do-That (1/3)

Hmong is a language of Southern China and Southeast Asia, especially the countries of Vietnam, Laos, and Thailand. One dialect of Hmong that is spoken in all of these countries is called Hmong Daw (or White Hmong). The sentences and phrases that you see below are from Hmong Daw. They are written in a writing system called RPA (Romanized Popular Alphabet). In this writing system, the initial consonant of a syllable is written first, followed by the vowel. If this vowel is doubled in writing, it is pronounced as nasalized or with a following “ng” sound. Last of all, a consonant symbol is used to represent the tone of the syllable (tone is a meaningful difference in pitch; for instance, Mandarin Chinese differentiates syllables with high, low, rising, and falling pitch). Hmong Daw has seven tones, one of which is indicated by the absence of any symbol. In this system, Hmong is written as *Hmoob*.

**O I.** In the following section, you are given a set of Hmong Daw sentences and phrases. English translations are presented in no particular order. Your task is to match the Hmong phrases and sentences with English translations; write your answers in the Answer Sheets. You should be aware that the order of words may differ significantly between the original phrases/sentences and their translations into the other language. Also note that the same word in English may translate to more than one word in Hmong, and vice versa.

Abbreviations: sg. = singular; du. = dual (two participants); pl. = plural.
