(J) Stockholms Tunnelbana (1/2) [15 points]

The following is a list of Stockholm metro stations, translated into English.

Actually, a few of them are pretty loose translations, and some are a bit over-literal. (We adapted them from a humorous map published by the English-language Swedish newsmagazine *The Local*.) Nonetheless, we think you'll be able to match up most of them.

Put the appropriate station number next to its English translation.
